Attached is the initial Coverage Change Report for January 1951 (Form No. 56-76 ) of broadcasts handled by the FBIS, Austrian Bureau.

The Vienna office has only one receiver at present. Since news broadcasts are frequently carried at the same time by a number of Austrian transmitters (at 0700, 1130, 1600, 1900 GMT and others ) an expansion of our program coverage will have to await the arrival of the new receivers from Washington.
